PROFESSIONAL DANCE AND PERFORMANCE HANDBOOK**

INTRODUCTION

This handbook gives a clear outline of the BA (Hons) Degree Course, how students are assessed, and information regarding the policies and procedures which apply to students studying the course.

The information included does not replace the individual class aims given to students by teachers. It demonstrates how the many different facets of the course come together to provide a training which prepares students for careers as professional dancers.

The Conservatoire for Dance and Drama

Established in 2001, the Conservatoire is a Higher Education Institution with a unique structure, currently comprising six schools. All of these are small, specialist institutions with international reputations for high quality delivery in their respective fields:

- Bristol Old Vic Theatre School
- Central School of Ballet
- National Centre for Circus Arts
- London Contemporary Dance School
- Northern School of Contemporary Dance
- Rambert School of Ballet and Contemporary Dance

Each school has an established record of training its students to a professional standard with an excellent success rate in the number of its students gaining employment in dance, drama or circus. The unrivalled quality of teaching enables the most talented students to benefit from vocational training, to which access is given regardless of background or financial circumstances. Within the Conservatoire there is a balance between the art forms of dance and drama, classical and contemporary styles, as well as the only provision for circus arts within higher education.

Each of the Conservatoire schools is a separate and distinct institution that employs its own teaching staff and remains legally autonomous. At the same time, students are registered jointly with the Conservatoire and the individual school. The Conservatoire operates through a series of committees and working groups to determine policy for the schools as a whole. The schools themselves are involved at every level of deliberation within the Conservatoire, enabling them to share knowledge and expertise for the benefit of staff, students and the wider creative world that they serve. Visit www.ccd.ac.uk for further information. At present, the Conservatoire does not have degree awarding powers and the schools' courses are validated by different universities:

Conservatoire Member Schools

Bristol Old Vic Theatre School

Opened in 1946 by Laurence Olivier, Bristol Old Vic Theatre School (BOVTS) is located in three nineteenth century buildings overlooking Bristol's famous Downs and in the former BBC Christchurch radio and television studios in Clifton village. The School provides entirely practical, industry-led vocational training for the rapidly expanding arts and entertainment industry.

Bristol Old Vic Theatre School became a Conservatoire school in 2003.

Central School of Ballet

When Central School of Ballet was founded in 1982 by the late Christopher Gable, CBE and Ann Stannard, it was designed to offer students a very different experience of ballet training: one that would value artistic expression alongside technique. Christopher and Ann had a very strong sense of the value of the individual in performance, believing in a personal approach to working, and this ethos continues to be valued at Central today. The degree courses offer both quality and breadth of learning, producing creative artists of the highest calibre who understand tradition, but are also equipped to create new work and respond to

changes in the professional world. Central School of Ballet's three year dance training course is validated by the University of Kent.

Central School of Ballet joined the Conservatoire for Dance and Drama in 2004.

The National Centre for Circus Arts

Based in a magnificent Victorian power station adjacent to Hoxton Square, The National Centre for Circus Arts is one of Europe's leading providers of circus education. Every year the school involves thousands of people in the creation and performance of circus arts.

The National Centre for Circus Arts joined the Conservatoire for Dance and Drama in 2004.

London Contemporary Dance School

London Contemporary Dance School (LCDS) is based at The Place, the UK's premier centre for dance, and offers dance artists from around the world the opportunity to pursue vocational training to the highest technical standards. With a world class faculty and unrivalled connections to the professional dance world, LCDS is proud to offer students a vibrant and stimulating learning experience.

London Contemporary Dance School was a founding member of the Conservatoire for Dance and Drama in 2001.

Northern School of Contemporary Dance

NSCD is a unique dance training institution offering a select group of students the opportunity to develop and excel as dance artists. The school provides world-class dance training, nurturing and developing talent without regard to race or social background. The courses prepare students for what can be a demanding and precarious profession and are taught by staff who are of the highest professional level. Classes are rigorous and challenging requiring a high level of commitment and determination. This approach enables students to continue to succeed in the highly competitive field of professional contemporary dance.

Northern School of Contemporary Dance joined the Conservatoire for Dance and Drama in 2003.

Rambert School of Ballet and Contemporary Dance

Uniquely in the UK, the Rambert School of Ballet and Contemporary Dance treats these two dance genres equally. The School is dedicated to providing for the holistic development of the individual in body and mind. It is a place of training and learning that allows each student to achieve his or her unique potential and it encourages reflection, research and creative discovery. Individuality is prized and encouraged. The School dates from 1919 when its founder, Marie Rambert, first began teaching in London and it is now one of the world's finest centres of professional dance education.

Rambert School of Ballet and Contemporary Dance joined the Conservatoire for Dance and Drama in 2005.

Policies and Procedures

COMMON POLICIES

Each School of the Conservatoire for Dance and Drama has a unique and distinct creative and artistic identity that informs the specialist training that students undertake. The Conservatoire complements the bespoke nature of the training offered by its Schools with a common approach to matters regarding student engagement, student complaints, student misconduct, and allied matters.

To achieve this balance, the Conservatoire for Dance and Drama has a set of agreed approaches and expectations about areas that commonly affect or impact upon students (such as the Government's Prevent strategy, student representation in Schools, information for students, and student support). Additionally, the Conservatoire also has a number of 'student-related' policies which apply to any student of the Conservatoire, regardless of the School they are studying with. All of these are referred to as 'common policies' and are as follows:

- Access and Participation Plan
- Admissions Policy Statement
- Admissions Appeals and Complaints Policy
- Conservatoire Code of Behaviour
- Criminal Records Policy
- Data Processing Statement
- Emergency Powers of Exclusion and Suspension
- Non-Academic Misconduct Policy
- Prevent
- Refunds and Compensation Policy
- Sexual Misconduct, Harassment and Related Behaviours
- Student Complaints Procedure
- Student Protection Plan
- Student Transfer Arrangements Statement
- Support Through Studies

Short descriptions of the common Conservatoire for Dance and Drama policies can be found in the Student Handbook. Full policy details can be found on the CDD website at: <http://www.cdd.ac.uk/policies/student-related-policies/>

The University of Kent also has regulations governing academic procedures, in particular academic appeals, academic misconduct and disciplinary procedures:

- Academic Appeals (University of Kent Regulations)
- Academic Misconduct (University of Kent Regulations)
- Academic Discipline Procedures (University of Kent Regulations)

Short descriptions of the above policies can be found in the Student Handbook, with full policy details on the University of Kent website at:

ATTENDANCE

Background

Training to be a dancer requires a regular intensive and rigorous programme of physical fitness and technical training. Central offers such a programme, complemented by Performance, Contextual and Professional Studies courses, which is designed to create highly skilled, versatile artists equipped for entry to the profession.

Regular attendance in class has been identified as a key factor in being successful as a dancer. If students are absent, they break the patterns required for successful learning, and have a disruptive effect on both the tutor and the learning of others. The School firmly believes that all students must take on the self-discipline required for prompt and regular attendance at all scheduled classes and effective use of private study time if they are to get the best from the course and be successful as dance artists. Many students are able to achieve the necessary self-discipline, but others need an incentive. It will be apparent as students progress through the school how effectively the student has managed to develop these crucial habits of self-discipline and this will be reflected in assessment. Therefore, the school has an Attendance Policy to monitor levels of attendance and to engender a professional approach to learning.

The Attendance Policy links continuous assessment to marks. A minimum level of attendance (80%) is also required in order for a student to be eligible to participate in Formal Assessments. Attendance is monitored on a termly basis and decisions made by the Senior Management Team regarding each student's eligibility to participate in Formal Assessments.

The Attendance Policy recognises that students occasionally sustain injury, become ill, or have personal difficulties that mean they cannot attend, or can only partially complete class. To allow for this, the Attendance Policy makes provision for a proportionate number of attendance credits that may be used without penalty to the marks in assessment.

Where a student is in serious and continued breach of the Attendance Policy, the Support Through Studies policy may be applied. The Support Through Studies policy can be found on the CDD [website policies page](#) or a hard copy can be requested from the Head of Studies.

The Attendance Policy

Students must attend a minimum of 80% of all classes to be eligible for assessment. This applies to all assessed courses. **To be registered as present, students must arrive at class in appropriate clothing, with appropriate materials, fully prepared and focused before the start of the class.**

Attendance Credits

You may gain an Attendance Credit if your absence is due to one of the following reasons:

- Illness. You must inform reception (info@csbschool.co.uk) by 8.30am if you are to be absent through illness. Failure to do this will mean the period in question will be recorded as an (uncredited) absence.
- Injury. You need to gain permission from the teacher whose class you are missing in order to attend Pilates or Recovery From Injury. This then qualifies for an Attendance Credit; this must be recorded in the register.
- Appointments. You must gain approval for absence from your tutor in advance of any appointments. Contact the Senior School Administrative Assistant who will advise you regarding the process of applying for permission to be absent.
- Personal difficulties. You must agree an Attendance Credit with your tutor.
- External performances/events. When students are representing Central in performances/ events **arranged and agreed by Central**, all staff whose classes you

are missing need to be informed in advance. In normal circumstances this will qualify for an Attendance Credit.

The effect of Absence and Attendance Credit on marks

For each subject:

Students with less than 20% absence are eligible for a mark

- Students who have more than 20% (un-credited) absence are given a mark of 0% and will thus fail
- Students who have more than 20% of credited absence and providing that they have no more than 20% of un-credited absence, may be given a concessionary mark.
- Students whose written work is submitted late will **receive a mark of 0%** unless there are mitigating factors as set out under Assessment.

Examination Board

The attendance of each student will be taken into consideration by the Examination Board at the end of the academic year in determining their final marks.

Technique Assessment Classes

In order to be eligible to take a Technique Assessment Class, each student must have an attendance record of at least 80% for the term, or permission from the Artistic Director.

Requests for absence

If you wish to take time off from School because you have a medical appointment for example, you must apply for permission to be absent (see above). This absence may or may not be credited, at the discretion of the Examination Board.

Recording attendance

A register is taken for each class and attendance is recorded on the mark sheet.

ASSESSMENT

Modes of Assessment:

Assessment is used to test your skills and knowledge in the different areas of the course and offers a formal opportunity to provide feedback on your progress. Most courses are assessed, and details of assessment are given in this Handbook.

There are two modes of assessment used in undergraduate study: Continuous Assessment and Formal Assessment. In Continuous Assessment, all your work in class is taken into consideration when forming a judgement; Formal Assessments take a variety of forms, but are concerned with testing you at a given time, that allows you to prepare in advance. Modes of formal assessment include: showings of work (such as a dance class); performances; and mock auditions. In addition, your Professional Development Portfolio (PDP) assignments are submitted for assessment.

Assessments differ for each course and are conceived as the best way to test abilities in each subject area. Overall, each assessment is designed to complement the learning aims and outcomes of each course. This in turn provides information on the ability and progress of each student in fulfilling the aims of the course.

All assessment marks remain provisional until confirmed by the Board of Examiners at the end of the year.

Continuous Assessment

This is undertaken by teachers at key points in the course in accordance with published criteria. Teachers measure your progress and achievement in each class, which is consolidated in a written report at the end of term. It is important to note that while continuous assessment gives credit for progress, effort, preparation, and participation, achievement gained in formal assessment constitutes 50% of the mark.

Remember that forms of language used in class may not be reflected on the assessment sheet. For example, if a tutor says to you “Very Good” or “Excellent” following an exercise, this may refer to your effort or your achievement relative to your norm, being used as a way to encourage you to do better. The continuous assessment report will indicate your standard of achievement across a number of areas and it is important that you do not confuse this with only your standard of effort, or comments designed to give you encouragement.

Continuous assessment reports should be shared with your parents/guardian.

Formal Assessment

During the course of the year you will have assessment classes or performances in all of your practical subjects. These are an opportunity to show the progress you have made and for staff to identify any areas of weakness in your work for which you may need additional help. Following each assessment, you are given feedback which should be kept by you for reference throughout your course. The School aims to give you feedback as soon as possible after the assessment; this will be verbal and will relate to your achievement of assessment criteria for the subject. You will also have an interview with the Artistic Director and a senior staff member. You will be expected to talk about your work and your progress in these interviews. You should produce minutes from the interviews, to inform your personal progression. Feedback should be used by you to set relevant learning targets for the next stage of the course. Assessment marks are subject to an internal moderation meeting which usually takes place at the end of each term.

Dates of all formal assessments are displayed on the assessment notice boards.

Terms Used in Assessments

- Formal Class Assessment
This refers to the presentation of work in a studio setting and will include both prepared and unseen work, class work and repertoire performance.
- Performance Assessment
This refers to the presentation to an audience of prepared repertoire and will usually take place in a theatrical setting.
- Viva Voce
This is used to test your depth of understanding and analysis in a given area and will take the form of an initial verbal presentation by you, followed by questions from, and discussion with, the panel.
- Progress Review
This is not part of the formal assessment procedure however it is valuable to you in providing feedback which can then be used to set targets. Progress Review is carried out regularly by your Tutor, across the course and in conjunction with your class teachers. Feedback is given verbally, and you should make and file your own notes.

Assessment processes:

Assessment processes adhere to the University of Kent Credit Framework:

<https://www.kent.ac.uk/teaching/ga/credit-framework/index.html>

The following describes how the assessment process works at Central School of Ballet:

Assessments are either marked by a team of three tutors or marked independently by one tutor with a sample second-marked by another tutor. All assessment marking is moderated.

Each marking tutor fills in an assessment sheet that details a mark and comments (this can then form the basis for discussion in an interview or tutorial). Following the assessment, the marking team meet with the year tutor and the class teacher. They discuss each student and provide feedback which is recorded by the year tutor. The process of discussion leads to a decision about the awarding and allocating of marks.

Marks for all modules and module components are given as a grade. Assessors reach a decision about a grade by consulting the criteria and band descriptors in the Course Handbooks, and by using one of the 22 grades according to the University of Kent marking scale. Students should always refer to the criteria and band descriptors for a greater understanding of the standard of work following assessment.

The school aims to give feedback on assessments as soon as possible. Students meet with their year tutor and another member of staff to be given the feedback from the different assessed disciplines. It is important that this is done verbally as there are opportunities for the students to ask questions and participate in discussion. The student records this feedback and they are given an indication of the bands into which their marks fall.

In the feedback process, students are expected to talk about their progress, achievement, self-assessment and the targets they have set for the coming period. There is opportunity for the students to gain further clarity if required through questions and discussion.

For formal assessment feedback, students should be aware that tutors place most emphasis on the actual feedback comments. Tutors will use comments such as, 'you are working within the very good/ good band and you are in the top, middle or just within this band'. This highlights the level of work without referring directly to the numerical mark.

It is important that students know how and what they need to improve. Feedback should empower the student to move forward in a positive way. The aim of the feedback is to help students to set targets and take ownership of their work. Rather than focussing on giving a mark, the feedback is used to help to explain the level the students is achieving within the assessment band descriptors. Tutors and students need to have a copy of the band descriptors at the meeting and these are always referred to.

Continuous assessment marks take account of attendance and progress over a period of time in addition to achievement. Continuous Assessment Reports are given to students at the end of each term. Reports indicate the level at which the student is working according to the relevant band descriptor. Tutors give detailed written feedback and students are asked to raise any concerns or issues with their tutors so that they can be discussed.

The External Examiner has access to all the work that contributes to the degree award. At times over the year External Examiner visits the school to look at samples of practical and performance work and assessment marks. They have the right to recommend that marks be adjusted if they believe they are too high or low (this recommendation is noted at the Board of Examiners meeting at the end of the academic year).

Students have the right to appeal against decisions of the Board of Examiners but may not appeal against academic judgement. If you have a query about your assessment comments or your feedback, it is important that you speak to your tutors. You can arrange a tutorial where the issue can be explained and discussed fully.

Note:

We are not imposing a 'no mark rule'. In the interests of good practice, we aim to place the emphasis in the verbal feedback session and the written report, on points of strength and areas for improvement. Marks for all elements of assessment contribute to the Module marks which are confirmed with students after the meeting of the Board of Examiners.

Protocol for Submission of Written Work

To facilitate tracking of coursework and concessions made to students as a result of mitigating circumstances, students need to submit their written assignments in the following way.

- 1 Assignment guidelines will be distributed and explained by Tutors at the start of term.
- 2 Written assignments need to be uploaded to Turnitin prior to submitting for marking via Moodle. Training will be given to students prior to the first submission date.

Note: Students are strongly recommended to allow good time to submit their work electronically, as system glitches will not be accepted as a valid reason for late submission. The Learning Development Manager can assist with queries regarding uploads.

- 3 The Learning Development Manager will collate assignments for marking, noting any missing work.
- 4 Essays are then marked, moderated and returned to the students via Moodle.
- 5 Work which is not submitted on time, where no mitigation has been agreed or is relevant, will receive a mark of zero. Where an assignment needs to be completed in order to ensure that all learning outcomes have been achieved, and there are extenuating circumstances, a new deadline can be given.

Note:

Failure to submit assignments on time, where no extenuating circumstances exist, may result in the failure of the whole module. In accordance with the University of Kent regulations, students are permitted to resit the module, but the module mark will be capped at 40%

Applications for Extensions

A student may sometimes not be able to perform a project or hand in their work on the designated date for a legitimate reason.

If you have a legitimate reason for not being able to participate in an assessment or to submit work on time, then you may request an assessment extension, which will grant you a fair amount of extra time to complete the work or prepare for assessment.

All requests for **extensions for practical work** should be made through your tutor or the Artistic Director. The student is responsible for completing an Assessment Deferral form (available from your tutor or from the school office) and submitting it to the Senior School Manager. You will be notified of the date for the deferral assessment.

All requests for **extensions for written work** should be made through the Head of Studies or Learning Development Manager. If agreed, the student will be given an Extension Request form to complete. A new date for submission will be discussed, agreed and noted on the form. The signed form needs to be retained by the Learning Development Manager.

Please note:

- Extensions must be applied for **at least 24 hours** before the deadline. Only in very exceptional circumstances will extensions be allowed once the deadline has passed.

- Extensions work differently for different types of assessment
 - **Group Performance or Group Class Assessment**
If you are unable to present work at a group performance or class assessment, either a new date for the performance or class will be set, or a new project will be set. If either of these is impractical, the matter will be referred to the Examination Board.
 - **Solo Performance, Class Showing, Test or Examination**
If you are unable to present work at a solo performance or showing or a test/examination, a new time will be agreed with you, if practical.
 - **Verbal Presentation**
A new date for the presentation will be agreed with the class tutor.
 - **Written or Project work**
A new hand in date will be set equivalent to the amount of time you were indisposed.

Reasons for requesting an extension that are normally considered legitimate:

- Illness or injury
- Family or personal problem
- Diagnosed Specific Learning Difference / English not the first language (written work only)

Reasons for requesting an extension that are NOT normally considered legitimate:

- Computer or printer problems
- Poor personal time management
- Moving house
- Holiday
- Books not available in the library
- Left the work at home/on the bus/stolen etc.

An extension will only be offered for an equivalent amount of time to that which you were indisposed. For example, if you were ill for three days, you can ask for a three day extension.

Note that:

- Illness must be supported by certification as appropriate (self-certification – five days and under, GP certification – above five days).

Failure to submit work or attend an assessment

For Central's Higher Education Courses, attendance has an impact on assessment. Students must attend a minimum of 80% of all classes to be eligible for assessment. This applies to all assessed courses. Details of the attendance policy (see p13) and can also be found in the Student Handbook.

If a student does not complete an assessment and does not have good reason for missing the assessment, under the Kent Credit Framework, they would normally record a fail or a mark of zero for that assessment. The final module mark will be calculated in the normal manner.

Students will have opportunities to retrieve failed modules. Modules passed through retrieval will be capped at the pass mark (40). Retrievals are confirmed at the exam board at the end of each academic year.

Where there are known mitigating circumstances in advance of an assessment, then the appropriate conventions will be applied in line with Annex 9 of Kent's Credit Framework.

<https://www.kent.ac.uk/teaching/qa/credit-framework/documents/cf2020-annex9-mitigation.pdf>

Board of Examiners and External Examiners

All assessment marks are provisional until finally approved by the Board of Examiners. The Exam Board usually takes place in July at Central with representatives from the University of Kent and the External Examiners. Leading up to this meeting all marks are subject to a range of moderation processes.

The Central staff who sit on the Board of Examiners are approved by the University of Kent, currently: Dr Jamieson Dryburgh, Director of Higher Education and Iryna Pyzniuk, Head of Studies.

The External Examiners are appointed by the University of Kent, currently: Carla Trim-Vamben and Kit Holder.

Important:
**Under no circumstances should students contact the
External Examiners directly.**

The External Examiner is expected to make an informed, independent assessment of the course. They ensure that all students are treated fairly and that our standards are in line with other degree courses in the country. The External Examiner has access to all assessed work. They are invited to see performances and are asked for advice concerning learning, teaching and assessment on the course. They attend the annual Exam Board and write an annual report for the University of Kent. Occasionally the External Examiner meets a group of students to discuss their work. The External Examiners' reports are considered at relevant staff meetings and at the Student Voice Forum, and are made available on the staff and student notice boards.

MITIGATING CIRCUMSTANCES

See the University of Kent website for details regarding the management of mitigating (concessionary) circumstances.

<https://www.kent.ac.uk/teaching/qa/credit-framework/documents/cf2020-annex9-mitigation.pdf>

Please note:

On occasion it may be necessary for a student to repeat modules in attendance (for example if half or more of the credit required to progress to the next stage of study has not been obtained).

Where a repeat of a year is required due to injury or illness and extenuating circumstances apply, any repeat year is recommended by the Mitigation Committee, and must be approved by Board of Examiners.

SUPPORT FOR STUDENTS

At Central we are committed to supporting all students to reach their full potential in all aspects of the course. In addition, we provide specific support to students with Specific Learning Differences such as Dyslexia, a specific learning difference affecting reading, spelling, writing, memory and concentration and sometimes maths, music, foreign languages and self-organisation. In most cases a one-to-one study skills tutor is appointed to support the individual student. This is funded through Student Finance, Disabled Student Allowance (DSA) which also provides students with learning aids such as laptops and relevant software. Students are fully supported in the process of applying for this funding. For further information, please see the Learning Development Manager.

With regards students for whom English is not their first language, dedicated staff for English as a Foreign Language provide lessons to support the development of writing, reading, listening and speaking skills, where appropriate.

PROGRESS AND PROGRESSION

The Student Progress Review Process

Student progress is monitored through daily observation by the course tutors and Heads of Year, the termly Progress Review and the Assessment process. If there is concern about a student's progress this will be raised with the Senior Management Team (SMT) and a course of action determined. All student progress is discussed at least termly by the teaching team, headed up by the Artistic Director and is further considered by the Academic Board.

If a student's progress is a cause for concern a meeting will be arranged between the student and members of the Senior Management Team using the Support Through Studies policy as appropriate.

Entry to the BA (Hons) in Professional Dance and Performance (top up degree)

It is important to note that the Foundation Degree and the BA (Hons) Degree are considered as two separate courses.

Please be advised that completion of Central School of Ballet's Foundation Degree does not guarantee progression from the Foundation Degree to the BA (Hons) top up degree.

The entry requirements for admission to the BA (Hons) top up degree course are as follows:

a. completion of an application form, and successful completion of Central School of Ballet's Foundation Degree (240 credits)

OR

b. successful completion of 240 credits on a directly comparable course (or equivalent), plus a required entrance task (a piece of reflective writing and a research task) and an audition. This route also applies to applicants from another member school of the Conservatoire.

Skills and Other Attributes B. Intellectual Skills:	
<ol style="list-style-type: none"> 1. Synthesise information from a range of sources in order to inform and progress own learning. [SB] 2. Research and interpret information from text, video, performance and professional practitioners to enhance understanding of the profession. [SB] 3. To be able to apply a creative and multi-disciplinary approach in a given area through understanding its relationship to the broader context. [SB] 4. Critical evaluation of performance events and processes – to embrace self-evaluation and evaluation of others. [SB] 5. Ability to understand and articulate critical factors contributing to practice and performance. [SB] 6. Undertake extended independent research. [SB] 7. Understand the relationship of performance to the context of its production and reception. [SB] 	<p>These skills are integral to all classes and learning activities: they are delivered through teaching strategies previously listed; developed through a full range of learning opportunities (specific examples below) and consolidated by the particular focus on an integrated approach to the course. The variety of teaching methods and assignments encourages engagement through different modes of learning, appropriate to the context of work.</p> <p>Teaching style aims continuously to encourage a learning environment that stimulates experimentation and evaluation to inform further development and test oral, written and performance presentation.</p> <p>Tutorials (group and individual) based on cross-curricular themes and personal research and experience will provide opportunities to debate and synthesise arguments and theories. Guest lecturers, prescribed viewing (live performance and video recordings) and reading will further inform the debate and develop further understanding. Extensive performance experience within the Ballet Central national tour module, in a variety of settings with diverse audiences (schools, community, site specific, theatrical) demands the integrated use of skills and a creative approach.</p> <p>The Professional Development Portfolio requires and provides evidence of the use of all the resources and strategies listed above.</p> <p>The research process involved in both the Professional Development Portfolio and the Dissertation, requires the ability to locate and critically assess a variety of relevant sources, using printed, electronic and visual media; as well as the ability to locate key practitioners to arrange interviews, and provide appropriate summaries of them. The ability is then required, to synthesise the information as it is applied to the issue under discussion and to the personal development of the student.</p>

C. Subject-specific Skills able to:	
1. attain a professional level of performance in Ballet and Contemporary Dance – in class, rehearsal and performance and will have an understanding of the use of jazz technique within a professional context. [SB]	This course provides a practical understanding of the technical skills and artistry required by the profession in Ballet, Contemporary Dance and jazz techniques with the opportunity to extend the skill base to virtuosic level, and provides training in aspects of musical theatre performance. Throughout the course, and extensively in the Ballet Central module, knowledge is used in creative situations working with teachers and external professional practitioners leading to public performance opportunities in a range of contexts, including a national tour of small and mid-scale theatres as well as site-specific venues. Experience of community and outreach work is achieved through a series of taught workshops, observations and participation in outreach events both in the local community and on tour with Ballet Central. The development of individual talent and unique performance qualities is achieved through the breadth of the curriculum, and, most importantly, the National Tour Ballet Central module. In this, the preparation and performance of a wide range of repertoire, requiring the practical application of different techniques and styles, alongside variations in artistic and musical interpretation and characterisation, facilitate the development of individual strengths and versatility, leading to the development of the distinctive and unique performing artist. Skills are taught through a range of methods: daily class, group and one-to-one coaching, recreation of existing repertoire, creation of original work, rehearsal and performance and video-analysis. Learning is assessed through a range of the following: class observation, video analysis, verbal presentation and interview, formal practical assessment and public performance, Self-assessment and peer assessment are used on a regular basis within the course.
2. respond appropriately to a range of performance situations. [SB]	
3. respond flexibly to wide range of creative and artistic demands within a rehearsal and performance situation.	
4. express meaning and emotion through performance. [SB]	
5. present solo work in dance (Ballet and Contemporary), text and song. [SB]	
6. demonstrate distinctive and unique qualities as a performer	
7. realise a performance from a documentary source (SB)	The dissertation, an independent research module within the course, requires the selection, research, rehearsal and performance of an appropriate solo from ballet or contemporary repertoire. The selection of the solo requires analysis of personal strengths, weaknesses, skills and unique performance qualities, extensive research of documentary sources, such as text and video, as well as interview. Analysis of research will be used to inform both the rehearsal process and the final performance of the solo. Assessment is of written assignment, <i>viva voce</i> , and performance.
8. research, identify and respond to employment opportunities including the ability to demonstrate appropriate performance skills at audition [SB] 9. identify and evaluate personal requirements in the practice of a holistic approach to the needs of a professional dancer, including warming up, cool down and exercise programme.	These skills are taught in practical workshop based activities, though the Professional Development Portfolio set tasks and in one-to-one interviews and tutorials. Specific training is given in audition technique, in health and safety issues, and exercise programmes. These areas are assessed through mock audition with visiting professional practitioners, interview, and oral contribution in class and in the Professional Development Portfolio.

10. Able to analyse strengths and match these to the needs of companies and organisations within the profession	
11. Identify Health and Safety issues within training, rehearsal and public performance.	
D. Transferable Skills:	
1. Ability to interact effectively as part of a team [SB]	<p>Taught and assessed through all methods cited above since these skills are interwoven into the course. However, the majority will be featured in individual or group project work, and will be taught/introduced through workshops, demonstrations and assigned tasks. Some of these skill areas are delivered in non-assessed workshops/tutorial/training sessions. Transferable skills will be evidenced in the Professional Development Portfolio, in rehearsal, in <i>viva voce</i> assessment and in one-to-one interview.</p>
2. Ability to take responsibility for and to evaluate own work	
3. Research, gather, sift and collate information to a given brief, critically evaluate its significance and present findings verbally, in writing and performance. [SB]	
4. Develop a range of communication skills for use in different context including interview and presentation. [SB]	
5. Reflect on own learning, identifying strategies for development, exploring strengths and weaknesses, seeking & using feedback, and developing progressive autonomy in learning as the course unfolds. [SB]

Additional to this is the independent project work, vocational preparation, and Dance Studies which will be assessed both on a continuous basis and through the portfolio.

Feedback from all assessment will be in the form of a percentage mark with written and/or verbal comments. In addition students receive ongoing feedback in practical classes, through the tutorial system and through Progress Review. Feedback from these sources combined with on-going self-assessment allows the student, in consultation with their tutor, to set regular learning targets.

Achievement is assessed by a variety of methods in accordance with the learning outcomes of the modules specified for the relevant level; the following generic criteria will be used alongside the specific learning outcomes of the relevant modules to assess;

Written Work:

1. Expresses ideas lucidly and with focussed relevance
2. Demonstrates the ability to go beyond description to analysis
3. Identifies appropriate illustrative and supportive material through relevant research and makes productive use of it
4. Shows the ability to present a well-constructed and planned discussion or investigation based on a secure grasp of source data and to draw reasoned and logical conclusions.
